

Enrico D'Amico

PROJECT MANAGER / UNITY DEVELOPER

Milano · enricodamico412@gmail.com · +39 392 301 8536 · enrico-02.github.io

Profile

My name is Enrico, and games and technology have been a passion of mine for as long as I can remember. At some point I decided to make a trade of it: I studied Game Development at NABA in Milan and, straight after graduating, joined WAY. There I picked up the other half of the job — holding a project together and coordinating teams, internal and external — without ever giving up building things of my own.

Experience

WAY — Milan, Italy

Project Manager (since January 2026) · Unity Developer VR/MR/XR · March 2025 — present

I joined as a developer and moved through QA and testing, PM support and independent development before owning projects myself. I have also designed and built entire applications on my own.

- Run VR and MR projects against phased milestones, coordinating teams of 2-4
- Lead storyboarding and pre-production, present the proposal at pitch stage, produce effort estimates
- Own internal reviews, client presentations and next-step definition
- Over 10 client-site installations and field trips: delivery, on-site validation, end-user training and support

Projects

Italy Decoded — Italian Ministry of Foreign Affairs ONGOING	Jun — Dec 2026
Project Manager	
Immersive VR/MR experience covering Italy's 14 strategic industrial sectors, for institutional promotion around an exhibition event. Team coordination, phase planning, client-facing ownership.	
Valentino Virtual Museum	Oct 2025 — Mar 2026
Project manager and sole developer	
Unity/WebGL web application for the maison's complete digital archive. Designed and built the entire application, from concept to delivery.	
Nure — VR guide to an archaeological site	Feb — Jun 2026
Freelance — sole developer · 70% development, 30% coordination	
Client: regional public body and cultural institution. Guided VR visit to an archaeological excavation, with a full virtual reconstruction of the site. Delivered and in use.	
Financial Education — Savings Module	H1 2026
Project Manager	
A VR training module on personal saving, built for students. Run from briefing to delivery with a team of 2-4. In use; a second module is planned.	
Amazon AWS — VR event installation	2025 — 2026
QA, installation and training · PM support	
VR event station. Four installation cycles with end-user technical training and on-site support.	
Additional XR projects	2025 — 2026
QA · planning support · installations — Sight, Marco Polo, Brescia Innovamusei, ANCE Belluno, Immersive Media Center	

Skills

- PROJECT MANAGEMENT**
- phased milestone planning · storyboarding and pre-production · client pitching · effort estimation · team coordination · internal reviews · progress reports
- PRODUCTION PIPELINE**
- briefing · pitch · storyboard · pre-production · research · development · installation
- HARDWARE AND PLATFORMS**
- Meta Quest 2/3/Pro · HTC Vive · Pico · desktop · console · mobile · web
- XR STACK**
- OpenXR · XR Interaction Toolkit · Meta SDK (Oculus Integration)
- DEVELOPMENT**
- Unity and C# · Unreal Engine · WebGL · JavaScript · Node.js/Express · Java
- 3D CONTENT**
- Maya · Blender · level design · retexturing
- TOOLS**
- Git/GitHub · Perforce · Jira (basic) · Excel · PowerPoint · AI-assisted development
- LANGUAGES AND MOBILITY**
- Italian (native) · English B2 · full driving licence, own car · available for travel

Education

- Start2Impact University**
- Backend Development track — Node.js/Express, Java
- May — Dec 2024
- NABA — Nuova Accademia di Belle Arti, Milan**
- BA in New Technologies for Applied Arts, Game Development · 105/110
- February 2024

Personal projects

React Native mobile apps, desktop data-management applications, small web games, personal automation.
